Falcon⁺

An investment, not an expense

As with the entire Series of Falcon Scanners, the Falcon+ is the only scanner you can purchase that will provide a return on your investment. Reduce doc prep labor, minimize errors and costly rescans. Eliminate consumables including patch sheets, photocopies and tape. Falcon+ has seven strategically-positioned, selectable Multi-Feed Detectors (MFDs), stopping virtually any double feeds or dog-eared pages from being missed. Our Thickness Measuring Device (TMD) will automatically detect and classify envelopes as transaction separators.

CAPTURE IMAGES IN NATIVE 600 DPI FULL COLOR

Get the images you want that best fit your operation's requirements. Falcon+ scanners capture images in 600 dpi. Output those images as you wish – 200, 300, or 600 dpi; bi-tonal, grayscale or color; TIFF, JPEG, JPEG 2000, JBIG, multi-page TIFF and PDF, PDF/A and Searchable PDF. You can even capture up to 10 "snippets" for each image.

FREEDOM FROM FEEDS AND SPEEDS

With its versatile feeder, the Falcon+ frees you to scan in the most optimal way for your business – use our One-Touch prep and scan model to minimize or eliminate document prep; stack feed your prepped work to achieve up to 120 ppm; engage Transport Mode to capture payments at burst rates up to 10,000 items per hour; or, activate the Thickness Measuring Device Override to scan fragile documents.

The Falcon+ allows you to capture almost any item: Scan contents directly from envelopes or boxes of file folders; capture receipts and small forms, odd-shaped pages, business cards and even X-rays and three-dimensional objects! And should you encounter a mis- or double-feed, simply rescan that document using our in-line refeeder – no need to remove and replace the stack of documents already on the feed tray.

REST SECURE

With the increased focus on security and compliance, ensuring a safe and secure document transformation process not only makes sense, it can help guard against data breaches and costly fines. Falcon+'s One-Touch scanning increases document integrity and minimizes document prep, paper handling and other manual tasks. With CertainScan 5.0, document security is enhanced by enabling encryption, digital signatures and user traceability measures.

YOU'VE GOT OPTIONS

The Falcon+ provides three programmable sort bins and FalconV+ has five programmable sort bins for operations requiring additional sorting capabilities. All Falcon+ models are equipped with an additional pass-through bin, ideal for large and delicate items.

Falcon+ is available as a Transportable model, while both scanners, Falcon+ and FalconV+, can be configured as standalone scanners, they can be connected to an OPEX Model 72™ Rapid Extraction Desk, or attached to the STS™ small mailroom sorter.

The optional Mobile Work Surface adds additional space and allows for the addition of an external capture device.

CORPORATION

STANDARD FEATURES

- Prep-reducing CertainScan 5.0 Software & PC
- Automatic and one-touch page classification
- Automatic de-skew
- Standard 7 Ultrasonic Multi-Feed Detectors
- TMD Override
- Wireless keyboard and mouse on retractable tray
- Top Bin Mirror
- 600 dpi capture
- Thick document sorting
- 3 or 5 programmable sort bins
- Mixed document capture
- Ergonomic design with 22" touch screen monitor
- Packet Sensing technology
- Early envelope detect
- ID Assist

OPTIONAL FEATURES

- External digital capture
- Multi-Function ID Assist™
- Audit trail printing (front & rear)
- Rear graphics printer for signature and code 39 barcode printing
- Mobile Work Surface
- Bankers Box Cart
- 1D and 2D Barcodes
- ScanLink API
- CertainScan Edit and Transform on external PC
- VRS* Technology Image Enhancement
- MICR/MICR+
- Key Assist™
- Reference ID

PRODUCT SPECIFICATIONS

| | |
|---------------------------------|--|
| Document Feeding | High-capacity auto feed, continuous drop feed, packet feed, rescan feed |
| Document Dimensions | W: 2.0-12" (5.08-30.48 cm) L: 3.5-25.50" (8.89-64.77 cm) |
| Scanning Speed | Up to 120 ppm (letter)/115 ppm (A4) @ 300 dpi |
| In-line Recognition | OCR, OMR, barcodes, document type ID |
| Media Detection | Multi-feed detection, height, length, skew and envelope detection |
| Bundled Software | CertainScan™ 5.0 64 bit host software, CertainScan Essentials™, CertainScan edit™, OPEX Transform™, OPEX standard barcode package, Windows 10 64 bit |
| Daily Duty Cycle | Unlimited |
| Physical Dimensions (H x W x D) | Falcon+: 64.35" x 102" x 32.27" (163.45 cm x 259.1 cm x 81.97 cm) FalconV+: 71.4" x 102" x 32.5" (181.4 cm x 259.1 cm x 82.5cm) Falcon+ Transportable™: 63" x 86.38" x 31.98" (160.02 cm x 219.41 cm x 81.23 cm) |
